“ *Trisha was an extremely hard worker and very talented in what she did! Security is so important to what we do at Lockheed and she took her job very seriously and was relied upon by so many. I worked with her many times over the years and she was always a joy to work with and to talk with. She loved her family and talked about them regularly. Trisha will definitely be missed at Lockheed Martin! My sympathy to your family! (Dawn O'Neill - Lockheed Martin)*

“ *My heartfelt sympathies to Trisha's family. I worked with Trisha at Lockheed Martin. She was an active member of our Environmental Safety and Health (ESH) Awareness Team. She was instrumental coordinating Driver Safety course on-site for the team and family members for a number of years. She also volunteered year after year as a participant on a number of our other ESH Awareness Team events such as Adopt a Highway roadway clean up, Household hazardous waste day, and personal paper shredder day. On a personal level she was a good person and open to discuss her MS journey. I filmed the piece on channel 9 news of the MS walk and Trisha's Troopers and planned to give it to her the next time I saw her. I have tried to attach it here for the family. She will be missed.*
